The applicants' election of Group I, claims 1-43 (and now also new claims 107-113) with traverse is respectfully acknowledged. The examiner will respond to the applicants' arguments from the restriction upon completion of this election of species requirement.

This application contains claims directed to the following patentably distinct species: The species are sacrificial agent selected from the group consisting of:

1) aromatic compounds of ether sulfonate, carboxylate or amino functional groups or combination of said group, glycols, glycol derivatives having molecular weights of 2000 Da or less, and combinations thereof.

Should applicants select 1) above they must also select a specific sacrificial agent (or specific combination) from the Markush species of claims 5 and 16.

2) alcohols, diols, polyols, ethers, esters, carboxylic acids, carboxylic acid derivatives, aromatic sulfonates, amines, alcoholamines, amides, ammonium salts, and polyglycols.

Should applicants select 2) above they must also select a specific sacrificial agent from claims 5, 12, 13, 14, 15, 17, 18, 19, 20, 21, 22, and 32.

The species are independent or distinct because each are mutually exclusive of one another and not obvious variants as sacrificial agents.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic. Applicants must elect a

singles specific species or combination of species as set forth above to be fully responsive with this election requirement.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.
